

DAY - 27, DAILY REPORT, 14 - 12 - 2021 (TUESDAY).

Today, I had an experience. When I woke up in the morning, it gave me a positive vibe, and the cab came to the apartments, and I went to the office. And my first session was very good with mentor Abin of the! Doctype html Tag it will create a declaration document. After that we want to type the code html it will create a whole document and after that I want to create a body which will create a body of the document. And the script is to create a Javascript code. And for loop first we want to initialize the loop and if it's true condition, I less than = that number, and after that I ++ is the increment of the for loop. And the second condition is false: it will go out of the loop. We want to type the code into a document. Write (Less than br) symbol. After that the condition is true it will go to the document. Write ("br) statement. After the Code will run or print the numbers 1 to 10 it is even or odd numbers. After that I read a book called extreme ownership that they want to pay to be a winner, and they must fear the blue and gold shirted navy seal instructor through the megaphone. And they have a famous hell week in the sea of training and they come etc. The students suffered through seventy two Hours straight of nearly nonstop of the three days. They had slept for less than three hours in total and they had the brutal challenge only a few years before, they had to think adversary. And the only 40 of u s maintained in the meantime the helve and the gold skirt where the naval special warfare training center and our officer leadership program, it has

supported large and the hen week in the new experience it has the buds / students there are filled with water and sand. On land the boat crews carried up to twenty feet high. In the pacific ocean and while each member has his very position as leader received the wanted attention from the instructor staff. It has the victorious boat crew in the seal instructor if the megaphone and the paddle in the surf zone has the boat in the maining straight and inexperienced not to get a job done. Our sea and the officers were expected in the lack of lost readers and ultimately to the performance team. The navy terms but awfully large and heavy when carried by hand. These Large rubber boats, black with painted yellow rim, weighed nearly two hundred pounds, and became heavier still with water and sand. A relic from the navy frogmen (underwater demolition team) days of World War II, etc. On land, the boat crew carried them up and over twenty-foot-high sand berms and ran with them for miles along the beach. And the Christmas celebration was very decorative with good songs and music by earnest Bro, that's all for the Day, thank you.
